

Mini NEA

Convenient // Compact

With our atmospheric or airless version of Mini NEA, your consumers can bring their favorite products wherever they go. Based on the NEA platform, this pack is ideal for promotional offers, in-store testers and gift and travel sets, offering an excellent evacuation rate and ultra-smooth actuation. It's also easy to customize—all adding up to a solution that leaves your customers wanting more.

Mini NEA

Promote your brand with on-the-go performance

- Based on the NEA engine with Pure Path™ technology for better formula protection
- Ultra-smooth actuation even on the most viscous formulas
- Excellent evacuation rate
- High-end comfort
- Contemporary design that's fully customizable and part of a family look
- Compliant with Ecocert and Cosmos
- Flexible integration into your atmospheric and airless filling processes
