

Iridya™

Precision // Ease

Iridya™ is a breakthrough multidose eye dropper designed to apply preservative-free formulations with high precision. With its elongated tip, exceptional ergonomics and NO-JET™ technology, Iridya ensures an easy, consumer-friendly experience. And, its proven formula protection and broad compatibility enable brand owners to deliver more secure dosing, drop after drop.

Give your patients accuracy down to the drop

Consumer Friendly

- Familiar squeeze-bottle dropper design
- Consumer-preferred design validated by qualitative testing
- Elongated tip for ease of use and precision
